

ROBEL AMARE

Software Engineer

@ robelamare75@gmail.com

https://www.linkedin.com/in/robel-amare-chekol/

Addis Ababa, Ethiopia

SUMMARY

Proficient junior software engineer with 4 year of experience in designing, developing, and implementing software applications. Utilize python ,Django, and react.js to write scalable, secure code with a knack for problem-solving. Successfully optimized a software program.

EXPERIENCE

Full Stack Developer

Final Project

2023 DebreMarkos, Ethiopia

Responsible for developing and implementing software applications

- Increased data accuracy by integrating third-party APIs and reducing redundancy.
- Managed a Beer Sales and Distribution System implementation with secure authentication and email verification.
- Integrated payment processing through Yenepay for streamlined transactions.
- Developed the backend using Django and front-end with HTML, CSS, JavaScript, and Bootstrap.
- Utilized SQLite for efficient database management in project architectures.

Software Engineer Intern

Bhardar university

2020 - 2021 Bhardar, Ethiopia

Assisted in the design and development of software applications

- Contributed to the development of a new feature that increased customer engagement
- Consistently met project deadlines and received a commendation for dedication and focus.

CURRENT CARIER

Coding Teacher

Yeka global highschool

2025

Mentored young students in coding languages and principles

EDUCATION

Bachelor's in Software Engineering

Debre Markos University

2019 - 2023 DebreMarkos

PROJECTS

Finance App Tracker

2024 Addis Ababa, Ethiopia

Built with Htmx and Django

- It includes pie chart for Data Visualzation

Job Portal

2025 AddisAbaba

It built with Django And Bootsrap

- It includes strong Authentication with Email verification

STRENGTHS

Problem-Solving

Resolved complex software issues in previous role delivering.

Collaboration

Led a cross-functional team of four developers in the successful execution of a critical project on time and under budget.

Adaptability

Quickly incorporated new software updates in all projects, ensuring minimal disruption to workflow and maintaining project schedules.

SKILLS

Front -- End

MERN Stack Vue.js

Tailwind Bootstrap

Back --End

Django Django ORM Node.js

Htmx .Net framework

CERTIFICATION

Fundamental Programming

Completed an web development from Udacity.

AWARDS

To Whom It May Concern

This Certificate is issued to **ROBEL AMARE**
CHEKOL upon his graduation in the regular
program with *Bachelor of Science Degree in*
Software Engineering on July 19, 2023 with
CGPA of 3.79. He took the National Exit
Examination in July 2023 and passed with a
score of 62%.

*The Original Diploma and Transcript will be
issued upon the discharge of cost sharing duty.*

COVER LETTER

Dear Hiring Manager,

I am writing to express my keen interest in the Backend Developer (Django Developer) position at the National Election Board of Ethiopia. With a **Bachelor's degree in Software Engineering** and over **four years of experience in designing, developing, and deploying software solutions**, I am confident in my ability to contribute to NEBE's mission of delivering secure, reliable, and efficient election systems.

In my recent role as a **Full Stack Developer**, I successfully built and optimized backend systems using **Django and Django ORM**, ensuring scalability, security, and performance. For example, I developed a **Beer Sales and Distribution System** with secure authentication, email verification, and integrated payment solutions through Yenepay, significantly improving data accuracy and transaction efficiency. I also built applications such as a **Finance App Tracker** (with Django and HTMX) and a **Job Portal** with strong authentication features—both of which highlight my expertise in backend logic, database design, and system integration.

My internship at **Bhardar University** further strengthened my problem-solving skills and ability to collaborate within a team environment, where I helped design and implement new software features that improved user engagement. Additionally, as a **Coding Teacher**, I have mentored students in programming principles, which enhanced my ability to communicate complex technical ideas clearly and effectively.

I am particularly drawn to NEBE's work because of its **critical role in strengthening democracy and transparency in Ethiopia**. I believe my technical skills in **Django, database management (SQLite, PostgreSQL), API integrations, and backend security** align well with your need for dependable and scalable software systems to manage election-related data and processes.

I am eager to bring my passion for building secure backend systems and my adaptability in fast-paced environments to NEBE's development team. I would welcome the opportunity to further discuss how my skills and experiences can contribute to your mission.

Thank you for considering my application. I look forward to the possibility of contributing to NEBE's important work.

Sincerely,

Robel Amare
